Place of Interview

C - Clinic
F - Field
T - Telephone
I - Internet
O - Other

Imported Case

N - Not an imported case
C - Yes, imported from another country
S - Yes, imported from another state
J - Yes, imported from another county/jurisdiction in the state
D - Yes, imported but not able to determine source county, state, and/or country
U - Unknown

Specimen Source

01 - Cervix/Endocervix
02 - Lesion - Genital
03 - Lesion – Extra Genital
04 - Lymph Node Aspirate
05 - Oropharynx
06 - Ophthalmia/Conjuctiva
07 - Other
08 - Other Aspirate
09 - Rectum
10 - Urethra
11 - Urine
12 - Vagina
13 - Blood/Serum
14 - Cerebrospinal Fluid (CSF)
88 - Not Applicable
99 - Unknown

Anatomic Site

A - Anus/Rectum
B - Penis
C - Scrotum
D - Vagina
E - Cervix
F - Naso-Pharynx
G - Mouth/Oral Cavity
H - Eye-Conjunctiva
I - Head
J - Torso
K - Extremities (Arms, Legs, Feet, Hands)
N - Not Applicable (N/A)
O - Other
U - Unknown

Qualitative Lab Result

P - Positive
N - Negative
I - Indeterminate/Equivocal
UN - Unknown/ No Result
Q - Quantity Not Sufficient
C - Contaminated specimen

Places met or had sex with partners

A - Adult Book Store/Cinema
B - Bars
C - Cruising in Automobile
D - Dance Halls
E - Escort Services
F - Baths/Spas/Resorts
G - Place of Worship
H - Home
I - Chat Rooms/Lines/Email/Internet
J - Jail/Prison
K - Clubs
L - Beach
M - Motel/Hotel
N - Shopping Mall
O - Other
P - Project/Shelter
Q - School
R - Gyms/Health Clubs
S - Partner's Home
T - Street
U - Circuit Party
V - Cruise (Boat)
W - Work
X - Park/Rest Area

Self Reported HIV Test Results

01 - Record Found – Positive: Patient HIV status is positive as supported by a provider, medical or other record review, other database, or lab report.
02 - Record Found – Negative: Patient HIV status is negative as supported by a provider, medical or other record review, other database, or lab report.
03 - Preliminary Positive: Patient reports a reactive HIV rapid test but did not receive the results of the associated conventional confirmatory test.
04 - Record Found – Indeterminate: Patient's results did not conclusively indicate whether he/she is HIV-positive or HIV-negative as supported by a provider, medical or other record review, other database, or lab report.
05 - No Record Found - Self Report Negative: Patient reports that his/her HIV status is negative.
06 - No Record Found - Self Report Positive: Patient reports that his/her HIV status is positive based on a confirmatory test result.
66 - Not Asked: The provider did not ask the patient about his/her HIV status. **77 –** Declined: The patient declines or is unwilling to report his/her HIV status.
99 - Don't Know: The patient reports that he/she is unaware of his/her HIV status.

Interview Record Codes

Sexual Risk Responses	**Y**-Yes, Anal or Vaginal Intercourse (with or without Oral Sex) **O**-Yes, Oral Sex Only **U**-Unspecified Type of Sex	**N**-No **R**-Refused to Answer **D**-Did Not Ask

Signs/Symptoms

A - Discharge or MPC
B - Chancre, Sores, Lesions, or Ulcers
C - Rash
D - Dysuria
E - Itching
F - Alopecia (Hair loss)
G - Condylomata Lata
H - Bleeding
I - Pharyngitis (Sore Throat)
J - Painful Sex
K - Abdominal Pain
L - Swelling/Inflammation
M - Mucous Patch
N - Lymphadenopathy
O - Other
P - Balanitis
Q - Fever
R - Cervical Friability
S - Ectopy
T - Epididymitis
V - Proctitis
W - Adnexal tenderness/Cervical motion tenderness

STD History

Y - Yes, patient has a history of STD
N - No, patient has never had a prior STD
U - Unknown if patient has had a prior STD
R - Patient refused to answer any questions regarding prior STD History

Interview Type

O - *Original Interview* the initial interview with an infected patient.
R - *Re-Interview* any interview after the Original Interview of an infected patient.
C - *Cluster Interview* any interview of a partner, social contact, or associate to better understand a social/sexual network.
U - *Unable to interview* may include situations where the original patient was not interviewed, but partner, social contact, or associate were initiated from other activities.

Referral

1 - Patient (Client): No health department involvement in referral of partner/social contact/associate.
2 - Provider: DIS or other health department staff involved in referral of partner/social contact/associate.
3 - Dual: The HIV-infected patient informs partner of his/her serostatus in presence of PS provider.
4 - Contract: The PS provider and HIV-infected patient negotiate a time frame for patient to inform his/her partners of their possible exposure to HIV. If the patient is unable to inform a partner within an agreed-upon time, the provider has the permission to notify and refer partners to HIV counseling, testing, and other support services.
5 - Third Party: Notification of patient conducted by non-health department provider.
6 - Refused Notification: Patient refused to be informed of his/her possible exposure to HIV.
7 - Partner Not Notified: Patient was not informed of his/her possible exposure to HIV.

Referral Basis

PARTNER-*Persons having sexual activities (of any type) or sharing needles with the Index patient.*
P1 - Sex Partner
P2 - Needle sharing Partner
P3 - Both Sex and Needle sharing Partner

SOCIAL CONTACT - *Persons named by an infected person (e.g., the Index patient or an infected partner or cluster)*
S1 - Person who has or had symptoms suggestive of the Condition(s) documented.
S2 - Person who is named as a sex partner of a known infected person.
S3 - Any other person who would benefit from an exam

ASSOCIATE-*Persons named by an uninfected partner or cluster*
A1 - Person who has or had symptoms suggestive of the Condition(s) documented.
A2 - Person who is named as a sex partner of a known infected person.
A3 - Any other person who would benefit from an exam

Cohort - **C1** - A person identified through outreach screening efforts as a result of case investigation (i.e., common geographical area of residence or hangout). The person was **not individually named** by anyone interviewed during case investigation.

900 Site Type

F01.01 Clinical – Inpatient hospital
F02.12 Clinical – TB clinic
F02.19 Clinical – Substance abuse treatment facility
F02.51 Clinical – Community health clinic
F03 Clinical – Emergency department
F08 Clinical – Primary Care Clinic (other than CHC)
F09 Clinical – Pharmacy or other retail-based clinic
F10 Clinical – STD clinic
F11 Clinical – Dental clinic
F12 Clinical – Correction facility clinic
F13 Clinical – Other
F04.05 Non-clinical – HIV testing site
F06.02 Non-clinical – School/educational facility

F06.04 Non-clinical – Community setting – Shelter/transitional housing
F06.05 Non-clinical – Community setting – Commercial facility
F06.07 Non-clinical – Community setting – Bar/club/adult entertainment
F06.08 Non-clinical – Community setting – Public area
F06.12 Non-clinical –Community setting – Individual residence
F06.88 Non-clinical – Community setting – Other
F07 Non-clinical – Correctional facility – non-healthcare
F14 Non-clinical – Health department – field visit
F15 Non-clinical – Community setting – Syringe exchange program
F88 Non-clinical – Other

Did Client Attend 1st Medical Appointment

1 – Pending
2 - Confirmed - Accessed service
3 - Confirmed - Did not access service
4 - Lost to follow-up after 90 days of referral date
5 - No follow-up
6 - Confirmed, Accessed within 14 days of (+) test
7 - Confirmed, Accessed within 30 days of (+) test
8 - Confirmed, Accessed after 30 days of (+) test
9 - No appt necessary, (-) test result
10 - No appt necessary, previous (+) in care
99 - Don't know

Source/Spread

SO - The source of infection for the original patient
SP - A spread from the original patient.
U - Partner infection is <u>not related to the original patient</u>.
UN (Unknown) - It is unknown whether a partner infection is related to the original patient.

Refered to Medical Care

0 No, client was not referred to HIV medical care/evaluation/treatment.
1 Yes, referred to HIV medical care/examination/treatment.

STD Dispositions

A - Preventative Treatment
B - Refused Preventative Treatment
